SKILLS

- Languages:** C++, Java, Python, JavaScript (ES6+)
- Frontend:** HTML5, CSS3, Tailwind CSS, React.js
- Backend:** Node.js, Express.js, REST APIs, JWT Authentication
- Databases:** PostgreSQL, MongoDB
- Core CS:** Data Structures & Algorithms, OOP, DBMS, Operating Systems, Computer Networks
- Tools & Platforms:** Git, GitHub, AWS, Docker, Postman
- Soft Skills:** Problem Solving, Team Collaboration, Logical Reasoning

PROJECTS

- Apna Lakshay LMS | Full Stack Web Application | [Live](#)Jul '26
- Developed a scalable LMS platform serving 100+ users with real-time seat and shift allocation.
 - Integrated 10+ modules including attendance tracking, fee management, and analytics.
 - Enhanced role-based dashboards for Admin and Student with real-time notifications.
 - Built AI Doubt Board and AI Mock Test features using Groq API for real-time subject-aware doubt solving and dynamic exam question generation.
 - Introduced QR-based identification system for automated attendance tracking.
 - Tech:** React.js, Node.js, Express.js, MongoDB, Socket.IO, Tailwind CSS, Vercel, Render
- ShopWave — Autonomous Support Agent | AI Agent | [Live](#)Apr '26
- Built an autonomous customer support agent using a ReAct (Reasoning + Acting) loop that classifies, investigates, and resolves support tickets end-to-end without human intervention.
 - Engineered a 6-layer LLM fallback system with round-robin rotation across 4 Groq API keys gracefully degrading to 2 Gemini backup keys using exponential backoff with jitter.
 - Implemented tool-calling architecture with 9 tools (get_order, issue_refund, cancel_order, escalate etc.) including safety gates preventing duplicate refunds within a session.
 - Designed confidence scoring and auto-escalation with social engineering detection to identify fake tier claims before executing any write operation.
 - Processed tickets concurrently using async semaphore with full reasoning audit trail persisted to MongoDB and a Dead Letter Queue for failed cases.
 - Tech:** Node.js, React.js, Groq API (Llama 3.3 70B), Google Gemini API, MongoDB, Docker

TRAINING

- Logic Building, Programming & Data Structures | CPE (LPU) | [Certificate](#)Jun '25 - Jul '25
- Grade: O (90%+)
 - Completed in-depth training on fundamental data structures with a strong focus on Problem Solving.
 - Practiced core DSA concepts including searching, sorting, recursion, and complexity analysis.
 - Solved diverse coding problems and mini-projects to improve logical thinking and coding efficiency.

CERTIFICATES

- Cloud Computing | NPTEL | [Link](#)Apr '25
- Design and Analysis of Algorithms | NPTEL | [Link](#)Mar '25
- Server side JavaScript with Node.js | Coursera | [Link](#)Mar '24

ACHIEVEMENTS

- Solved 550+ DSA problems on LeetCode with a 300+ day streak, demonstrating strong Problem Solving skills and consistency.
- Achieved 5-star rating in C++ and Java on HackerRank, showcasing proficiency in algorithmic Problem Solving.
- Active GitHub contributor with 2500+ contributions, building scalable Full Stack Applications.

EDUCATION

- Lovely Professional University** Punjab, India
Bachelor of Technology - Computer Science and Engineering; **CGPA: 7.20** Aug '23 - Present
- DR. I.S.N.R.K.P.L.D Kisan College** Sitamarhi, Bihar
Intermediate; **Percentage: 78.20%** Apr '20 – Mar '22
- Sitamarhi Central School** Sitamarhi, Bihar
Matriculation; **Percentage: 69.20%** Apr '19 – Mar '20
